RUBANDA SISTERS' REPORT ABOUT THE WATER PROJECT AND COMPLETION OF CONSTRUCTIONS

On the 19th of April 2021 we received an acknowledgement receipt from the Rubanda sisters that they had received the UGX 71.882.600.

I visited the home on the 12th of May to see the progress of the water project and how far the sisters had gone with the construction of the Sisters Elderly Home house.

I was welcomed by the Mother Superior who handed me over to one of the sisters who showed me around the water project and the building.

- **Water harvesting**

This was handled by Sonko a technician from Tusaidiane, everything was in place apart from the water pump, this is yet to be put in place when the slab for the tanks has properly dried. But all the pipes, pump house, tank stand and electricity cables are in place.

- **New house**

All the plumbing work is done on the house, the floors in the house are being prepared for tiling and by the end of this week the house will be fully tiled and soon painted after everything is done.

- **Veranda at the Novitiate house**

Around the house the verandas have been repaired/finished and are in the process of drying. It looked all nice and with proper quality.

The sisters were very thankful to the congregation of the sisters of Breda and Tusaidiane for the both the financial and technical support.

4 Tanks of 10.000 that are collecting water from all the roofs
